STATE OF MONTANA  
DEPARTMENT OF SECRETARY OF STATE

—[S]—

Helena, Montana,  
November 28, 1928.

Hon. J. E. Erickson,  
Governor of Montana,  
Helena, Montana.

Dear Sir:

I have the honor to submit herewith the Biennial Report of this Department covering the period of July 1, 1926, to and including June 30, 1928, as required by the provisions of Section 519 Revised Codes of Montana, 1921.

I am pleased to invite your attention to the fact that the General Fund fees now collected by this Department have totaled, with but two exceptions, the largest for any single year in the history of the office. Over a period of the last fourteen years the General Fund fees collected by this office totaled \$1,032,400.04. The lowest yearly collections existed in 1915 when the total collections amounted to \$40,205.96. The 1928 total to June 30 shows an increase of more than 100% over the 1914 total, the collections for this particular year being \$80,888.04.

The increase over this period of years, while partly accounted for by reason of legislation increasing filing fees generally, is mainly due, I believe, to increased commercial activities in Montana, as shown by the large number of corporations created during this period.

I respectfully invite your attention to the following condition which exists under the provisions of Section 6538 of the Civil Code of Montana relating to railroad corporations.

This section allows a flat fee of \$16 for each lease of equipment recorded under the provisions of the act. There was tendered to this office in August last, several equipment leases of the character mentioned, for which this office could collect a fee of only \$16 each. Since all other classes of corporations are charged at the rate of 20c per folio of 100 words for recording papers of similar character, I believe Section 6538 should be amended so as to place the recording of a railroad equipment lease upon the same basis as that specified in Section 145 Revised Codes of 1921. The benefit of such a change in Section 6538 will be apparent when I point out that had the 20c folio charge existed this year, an additional revenue of several hundred dollars could have been realized from this class of work alone.

Under the provisions of Section 5908, the Secretary of State may not issue a certificate of incorporation to a proposed corporation having the same or similar name as that of an existing domestic corporation. The Attorney General in two instances has given his opinion that this section also applies to foreign corporations entering Montana which have the same name as that of an existing Montana corporation.

In order that this Department may avoid litigation which seems imminent, I respectfully recommend the passage of a law which also limits the Secretary of State from admitting a foreign corporation to the State which has the same or similar name to that of an existing domestic or foreign corporation. I see no reason why the same statute should not apply to foreign as well as domestic corporations.

During the Twentieth Legislative Assembly a resolution was passed restricting the number of copies of the session laws which should be bound in buckram and those which should be bound in paper covers. In publishing these session laws, this Department followed the resolution as closely as possible, but in doing so, it was found necessary to send many paper-bound volumes for use of foreign states. Complaints immediately arose from the State Libraries of Connecticut, North Carolina, Georgia, and others, asking for the more permanently bound books. If a resolution is necessary to control the publication of these laws, I would recommend one that will at least give the Department the more permanently bound volumes, so that no embarrassment may be experienced in supplying the libraries of foreign countries and states.

Under Section 155 Revised Codes of Montana 1907, the Secretary of State was authorized to distribute the house and senate journals to members of the House and Senate of Montana. In 1921, by Sec. 1, Chapter 126, the Legislature saw fit to repeal this particular provision. The repeal was made as an economy measure at the time. The result has been since 1921 that no journals could be distributed to members of the House and Senate although numerous resolutions have been made, looking to the distribution of these copies to members. The Attorney General has intimated in an opinion dated March 19, 1927, that a resolution does not amend a statute, and I was therefore thrown back upon the provisions of Sec. 1, Chapter 126, laws of 1921. (Sec. 135 R. C. 1921).

In this matter I recommend, if it is the desire of the Twenty-first Assembly to supply its members with the journals, that amendment be made to Sec. 135, Revised Codes of 1921, authorizing and directing the Secretary of State to supply the same.

I further respectfully invite your attention to the following recommendations contained in the report of my predecessor for the biennium ended June 30, 1926:

**"FOREIGN CORPORATIONS:** Foreign corporations transacting business in this State are very negligent about filing their annual statements. Many of them are from one month to five years late in doing so. Others pay no attention to the

notices mailed from this office, and while Chapter 95, laws of 1925, declares a forfeiture of the right to do business, yet no method is provided whereby this law may be enforced. We suggest that the law be strengthened in such a way that the State's machinery may be brought to bear promptly on those companies not filing within the specified time."

The report further continues:

"Foreign corporations are permitted to enter the State, having capital stock of "no par value," while under the statute covering chartering of Montana or domestic corporations, these corporations are required to specify a par value. In this respect, the domestic corporations are being discriminated against as compared with foreign corporations, contrary to the provisions of Article 15, Section 11 of the Constitution."

In 1926 report, the following recommendation appears:

"Under the Constitution, this Department is required to publish proposed amendments thereto, in each county for three months prior to the General Election, this costing the State an average of approximately \$10,079.23 for each amendment. In addition to this expense, we find that under Sections 537-8 of the Revised Codes, a law that requires the County Clerk and Recorder to publish the same amendment for a period of three weeks prior to the election in each county in the State. This of course means a duplication. In other words, the newspaper carrying the publication ordered by the State, will also carry in its columns at the same time the same amendment ordered by the County Clerk. We therefore recommend that Sections 537 and 538 be repealed."

The Legislature by enactment of Chapter 62, laws of 1927, has, at least impliedly, followed this recommendation, so that it was found unnecessary for this Department to certify for publication Initiative measure No. 32. It was, however, still necessary to certify for publication, the proposed constitutional amendment Chapter 72, laws of 1927, thus resulting again in unnecessary expense to the people of Montana by reason of duplicate publication of this amendment. I, therefore, recommend the repeal of Sections 537 and 538. These two sections are entirely unnecessary in my opinion and are costing the people of Montana much money at every election.

There now exists a conflict between Section 145 and Section 4288 Revised Codes of 1921, covering the registration of trade marks. Section 145, requires the payment of a fee of \$6 for the registration, whereas Section 4288, requires payment of a fee of but \$3. When amendment was made to Sec. 145 in 1921, it was evidently the intent of the Legislature that the trade mark registration fee should be \$6. It appears, however, that while this section requires the Secretary of State to collect a fee of \$6, Section 4288 is a special statute and will probably govern in case the fee fixed by Sec. 145 is questioned. I therefore recommend amendment to Sec. 4288, definitely fixing the registration fee as \$5 and \$1 for certification of extra copy.

The work of this Department has increased yearly. There is much work to be done, particularly in the matter of recording, which is de-

laid by reason of lack of appropriation. The appropriation allowed this office for the general expenses of the fiscal year ending June 30, 1929, is now completely exhausted, with six months to go, and it is therefore apparent that an additional appropriation for this office must be requested and given in order that the Department may function properly for the balance of the fiscal year. An approximate estimate of the funds required will total \$2,000.00. A summary of Budget requests will be found on page 9A of this report.

During this Biennium this Department has been served by four Secretaries of State, as follows:

C. T. Stewart, to March 4, 1927.  
 R. N. Hawkins, March 5, 1927, to April 30, 1927.  
 William Powers, May 1, 1927, to April 15, 1928.  
 John W. Mountjoy, from April 16, 1928.

Following will be found a Summary of Receipts and Disbursements of the Department and a Report of Candidates' Expenses at both Primary and General Elections of 1928, as required by the provisions of Section 10782:
